

SH-PIRCAM-OUT

WIRELESS OUTDOOR PIR & CAMERA DETECTOR

The SH-PIRCAM-OUT allows visual verification by alarm or on-demand for owners and CMS. It can be configured Over-The-Air.

The SH-PIRCAM-OUT is a two-way wireless outdoor motion detector with a built-in CMOS high quality color camera and an advanced VMD technology for reliable external visual verification.

SPECIFICATION

Detection Method	Quad Element PIR & CMOS Camera for visual verification
Communication Protocol	Freewave2™ Two Way ISM GFSK with 5 frequencies & LBT
Frequencies	868-869MHz or 916-917MHz
Identification	Unique ID serial number
Events Transmission	Alarm, Tamper, Supervision, Low Bat
Range in open space	500m
Camera	CMOS camera with VGA or QVGA resolution
Picture Range	12m
Picture Mode Sensitivity (configurable)	<u>"Take Picture" mode:</u> ≥ 16 VLux/sec – Color Picture ≤ 16 VLux/sec – B&W Picture with IR LED <u>"Alarm" mode:</u> B&W or VGA/QVGA Color picture
Battery life expectancy	Up to 3 years
Current Consumptions	Receive mode – 24mA Transmit mode – 38mA
Battery	Two 3V Lithium battery D Size
Operation Temp	-25°C ~ +55 °C
IP Rating	IP 65
Dimensions	135mm x 75mm x 70mm
Weight	400gr
Compliance	CE

DETECTION PATTERN
