# Shepherd Eco System

## Control Panel

The Shepherd is Crow's new generation of Security and Safety panel and devices. The Shepherd eco system offers the highest standard of reliability in data transmission via its multiple communication paths, two way ISM and Dect devices and advanced Cloud.

- Green Eco system with peripherals life time operation up to 10 years without battery replacement
- SUOTA "Software Over for the Air" for easy Remote configuration, upgrade and testing of wireless equipment
- Advanced diagnostic tools for optimal installation and configuration
- Smart and wide Portfolio for Security, Safety, Comfort, Energy Management
- Long range of wireless communication
- Outstanding Crow Cloud and Smart Shepherd Apps
- Compliance with RE directive (RED):2014/53/EU and EN50131 European standard Grade 2
- Operation in a harmonized 868 MHz & 916 Mhz bands

The gateway and its peripherals are very easy to install and configure Via web site or via Shepherd APP. Learning a device is done by simply entering its serial number provided on a label or scanning the barcode and inserting a battery or ...tamper? The Shepherd gateway will instantly recognizes the device with its default settings and allow to change them as per the installation requirements and needs.

Status and diagnostic such as communication quality, battery level, RSSI,... s as well as updates, changes and upgrades can also be performed Via web site or via Shepherd APP.

# SH-KP

## Wireless LED keypad for SHEPHERD™ panel with built-in proximity reader and internal sounder

SH-KP is The Shepherd's two-way wireless LED keypad. It enables easy arming and disarming as well as emergency, fire and panic alarms. It can be wall-mounted or used as a portable device. When wall-mounted, it provides back-tamper protection and supervision alerts. SH-KP features extended communication range and battery life

- Easy and user-friendly control of the security system
- Integrated panic function
- Ergonomic design for handheld use or wall mounting
- 5 years battery life

### SPECIFICATION

# SH-PIR & SH-PIR-CRT

## Mirror optics based wireless PIR & curtain PIR detectors

The SH-PIR is fully a supervised mirror optics Two-Way wireless PIR detector.

It features full communication including Supervision, Tamper, Low Battery as well as test transmission signals (Communication, Tamper, Alarm). The SH-PIR can be configured Over-The-Air.

The SH-CRT is a wireless detector featuring a solid curtain coverage up to 8m length by 3m height.

The SH-CRT may be used for perimeter protection by setting up detection “curtains” walls or windows.

The SH-CRT can be configured Over-The-Air.

# FW2-EDS-3000 AM

## Wireless Double PIR and Anti-Masking Outdoor Detector

- Dual Quad Element Pyro sensor
- Anti-Masking
- Coverage detection pattern of 90° adjustable within 180°
- Heavy duty polycarbonate housing
- Sealed electronics and optics
- Automatic temperature compensation
- User selectable sensitivity levels
- Superior filtering against sun and white light
- Up to 55 kg Pet immunity
- IP55 rated

### SPECIFICATION

|                             |  |
|-----------------------------|--|
| Detection Method            | Double PIR   |
| WA Detection Pattern        | 90° with 30 zones detection  |
| Data Protocol               | Freewave2™ Two Way Protocol  |
| Modulation Type             | GFSK   |
| Frequency Band              | 868-869MHz / 916-917MHz  |
| Identification              | Unique ID serial number – 24 bit   |
| Event Transmission          | Alarm, Tamper, Supervision, Low Battery                                  |
| Detection Range             | Configurable from 3m to 12m  |
| Warm up Period              | 30 Sec (±0.5sec)   |
| LED Indications             | Red LED during pairing, alarm and transmission                           |
| Range in open space         | 500 m  |
| Tamper Switch               | Front cover removal & Back tamper  |
| Supervision Time            | 7 min by default (programmable between 1 to 30 min)                      |
| Optimal installation height | 1.2m   |

# SH-MAG & Shock

## Wireless Door/Window Magnetic Shock Contact

The SH-MAG is an advanced magnetic contact device with an integrated RF transceiver designed to be a fully supervised low-current device.

The SH-MAG can be configured Over-The-Air.

Sensitivity of the vibration sensor is configured remotely by using the EASY SHEPHERD s/w or the Shepherd app . Using the two built-in reed switches provides an option to choose the method of installation: the magnet interacting with the sensor can be placed either under or beside the detector, depending on the needs. The detector has a tamper switch and a test mode LED indicator.

- Internal Reed Switch
- Coverage 500m in open space
- Powered by 2 Lithium batteries AAA 1.5V
- Battery life more than 5 years
- Configurable over-the-air
- Tamper Switch: Front cover removal
- Multicolor LED indications

### SPECIFICATION

|                        |   |
|------------------------|---|
| Detection Method       | Magnetic Field Sensor   |
| Communication Protocol | Freewave2™ Two Way ISM<br>GFSK with 5 frequencies & LBT   |
| Operating Frequencies  | 868-869MHz or 916-917MHz  |
| Identification         | Unique ID serial number – 24 bit  |
| Events Transmission    | Alarm, Tamper, Supervision, Low Bat, Keep Alive.  |
| Supervision Time       | 7 min by default (configurable between 1 to 30 min)   |
| Transmission Range     | 500m in open space  |
| Battery                | 2 Lithium batteries AAA 1.5V Type L92   |
| Battery life           | Up to 5 years   |

# SH-GBD

## Wireless Glass Break Detector

The SH-GBD is an Omni-directional Wireless Glass Break Detector providing a detection coverage of 180°.

It can be configured Over-The-Air.

- 2 Way Wireless communication
- ISM Radio 2GFSK
- Frequency Band: 868MHz, 915MHz
- Low current Technology
- Powered by 2 Lithium batteries 1.5 Volt
- Battery life : up to 4 years
- Back Tamper (removal protection)
- Supervision transmission
- Battery status signal transmission
- Unique ID number (24 bits)
- Configurable over-the-air

# SH-PIRCAM INDOOR

## Wireless Indoor PIR & Camera Detector

The SH-PIRCAM Indoor is a two way wireless motion detector with a built-in CMOS high quality color camera that provides the perfect solution for visual alarm verification of your premises.

When your control panel is armed and the PIR sensor detects a movement, the detector sends an alert and transmit picture to the CMS or to your mobile phone (via CrowCloud™).

The SH-PIRCAM can be configured Over-The-Air.

- Quad element Motion Detector ASIC based
- CMOS with VGA resolution
- Coverage up to 12m
- Pet Immunity up to 25kgs
- Configurable over-the-air by the Base Station
- Tamper Switch: Front cover and back tamper

### SPECIFICATION

|                        |  |
|------------------------|--|
| Detection Method       | Quad Pyro Element Sensor   |

# FW2-PIR CAM OUTDOOR

## Wireless Outdoor PIR & Camera Detector

The SH-PIRCAM-OUT allows visual verification by alarm or on-demand for owners and CMS. It can be configured Over-The-Air.

The SH-PIRCAM-OUT is a two-way wireless outdoor motion detector with a built-in CMOS high quality color camera and an advanced VMD technology for reliable external visual verification.

# FW2-Neptune

## Wireless Outdoor Sounder

The SH-Neptune is a wireless two-way, self-powered outdoor siren. It features fully supervised communication, highly reliable operation and optimal wireless performance, including visual and audial notifications.

The SH-Neptune can be configured Over-The-Air.

### SPECIFICATION

| Power Supply current limitation | Up to 1.8A  |
| Siren Alarm Period              | 2 min/15 min (programmable)   |
| Arm/Disarm Indication           | LED Flash : Arm-1 Disarm-3<br>LED Flash with Beeps : Arm-1 Disarm-3   |
| Supervision                     | Sync signal every 1 min   |
| Tamper Switch                   | Normally Closed   |
| Power Supply Voltage            | 9V÷15V DC or Battery 3.6V /14Ah Lithium or both.  |
| Battery Life                    | Up to 5 years (Based on 2 min Piezo operation/month)  |
| Low Battery Level               | 2.8V  |
| Low Battery Indication          | LED Flash @ Arm/Disarm  |
| Material                        | External Box: P.C. (3mm thick).   |
| Case Protection Level           | IP 55 - Plastic PC with UV protection. Conformal coated circuit board   |
| Operating temperature range     | -30°C to +70°C  |
| Dimensions                      | 310mm x 205mm x 75mm  |
| Weight (Without Battery)        | 1.2 Kg  |
| Compliance                      | EN50131 Grade 2, Environmental Class II   |

### **3. SAFETY DEVICES**

**Smoke Detector**

**FW-FLOOD**

# SH-SMK

## Wireless Smoke Detector

The SH-SMK is a fully supervised wireless smoke detector compatible with Crow's two way wireless panels.

It is easy to install, features up to 10 years battery life.

- Wireless Smoke detector
- Available in 868Mhz or 916Mhz
- Powered by of 2 Lithium 3V, Size: AA
- Battery life more than 10 years

### SPECIFICATION

|                        |   |
|------------------------|---|
| Detection Method       | Photoelectric Smoke Detector  |
| Communication Protocol | Freewave2™ Two Way ISM<br>GFSK with 5 frequencies & LBT                     |
| Frequency Band         | 868-869MHz or 916-917MHz  |
| Identification         | Unique ID serial number – 24 bit  |
| Event Transmission     | Alarm, Tamper, Supervision, Low Bat Supervision                             |
| LED Indications        | LED during alarm  |
| Tamper Switch          | Bracket Removal   |
| Communication Range    | 500m in open space  |
| Detection Sensitivity  | 2.3+1.2%/ft   |
| Alarm Sound Level      | 85 dB at 3 m Audible Warning Built-in horn beeps ones<br>Test mode Or Alarm |
| EMI rejection          | up to 2 GHz > 10 V/m  |
| Battery                | Lithium 2 batteries pack 3v/2900mah (L91)                                   |
| Battery Life           | Up to 10 years  |
| Operating Temperature  | -10°C to +55°C  |
| Dimensions             | 124.3mm x 30mm  |
| Weight (incl. battery) | 200gr   |

# SH-FLOOD

## Wireless Flood Detector

The SH-Flood is an advanced leak detector with an integrated RF transceiver designed to be a fully supervised low-current device.

It features a built-in terminal connection for an external wired sensor.

- Wireless Flood detector
- Available in 868Mhz or 916Mhz
- Powered by of 2 Lithium 3V, Size: AA
- Battery life more than 10 years

### SPECIFICATION

|                        |  |
|------------------------|--|
| Detection Method       | External golden contacts pins device                         |
| Communication Protocol | Freewave2™ Two Way ISM<br>GFSK with 5 frequencies & LBT      |
| Identification         | Unique ID serial number – 24 bit                             |
| Event Transmission     | Alarm, Tamper, Supervision, Low Bat Supervision              |
| LED Indications        | Red LED during alarm   |
| Tamper Switch          | Font Cover Removal   |
| Supervision Time       | 7 min by default (programmable between 1 to 30 min)          |
| Communication Range    | space 500m in open space                                     |
| Current Consumptions   | Standby ~3 µA<br>Receive mode ~29 mA<br>Transmit mode ~38 mA |
| Battery                | 2 Lithium batteries 1.5V AA 2900mA                           |
| Battery Life           | Up to 5 years  |
| Operating Temperature  | -10°C to +55°C   |
| Dimensions             | 63mm x 23.3m x 63mm  |
| Weight (Inc. battery)  | 100 gr   |
| Compliance             | CE   |

# SH-ACP

## Wireless AC plug for indoor use

The SH-ACP is easy-to-install and can be plugged into any socket to control any appliance rated less than 3200W manually or remotely via mobile application.

- FW2 protocol
- 2GFSK modulation type
- Frequency Band: 868.35MHz / 916MHz
- Supervision transmission.
- Color LED indications
- Range up to 150m on open space.

### SPECIFICATION

|                        |   |
|------------------------|---|
| Operation Method       | Relay Switch OPEN / CLOSE   |
| Communication Protocol | Freewave2™ Two Way ISM GFSK with 5 frequencies & LBT                |
| Frequency              | 868-869MHz or 916-917MHz  |
| Identification         | Unique ID serial number – 24 bit                                    |
| Events Transmission    | ON/OFF Status, Supervision  |
| Supervision Time       | 7 min by default (configurable between 1 to 30 minutes)             |
| Communication Range    | 150m in open space  |
| Power Supply           | Powered directly from the mains                                     |
| Current Consumptions   | Standby ~24ma@220VAC<br>Receive mode ~25 mA<br>Transmit mode ~45 mA |
| Operating Temp         | -10°C to +55°C  |
| Dimensions             | 100mm x 50mm x 75mm   |
| Weight                 | 100 gr.   |
| Compliance             | CE  |

# SH-AQ

SH-AQ is a unique detector which combines barometric pressure, relative humidity, ambient temperature and air quality. It is small and user friendly making it easy to integrate to your Shepherd system.

Data is registered in Crow Cloud and user can monitor his ambient indoor air quality for his personal health and quality of life.

SH-AQ turns your smartphone into a portable indoor air quality monitor.

# DECT ULE HUM

## DECT ULE Humidity, Temperature & Air Pressure Sensor

The DECT ULE HUM is a Do-It-Yourself fully supervised low-current Air monitor detector.

The DECT ULE HUM is part of the DECT ULE wireless line of devices embedding an advanced DECT ULE RF transceiver.

The DECT ULE HUM features include Humidity, Temperature & Air Pressure monitoring, and the results are displayed on an LCD as well as reported to the base station.

The DECT ULE HUM uses smart message control verifying all messages are successfully transmitted to the base station.

- DECT ULE RF protocol.
- Low current Technology.
- Do-It-Yourself Friendly Pairing and Installation processes.
- SW Update Over The Air.
- Keep Alive transmission.
- Battery Status Check on Every Transmission.
- Temperature Displayed in Celsius & Fahrenheit.
- Remotely configurable.
- A 35mm Diameter Display.

### TECHNICAL SPECIFICATIONS

|                         |  |
|-------------------------|--|
| Modulation Type         | DECT Standard  |
| Frequency Band          | All DECT Bands   |
| Event Transmission      | Alarm, Tamper, Low Bat, Keep Alive (every 7 minutes – configurable)                |
| Detection Method        | Humidity, Temperature & Air Pressure Sensor  |
| Range                   | 500 meters (Open Space)  |
| Battery                 | Lithium. 3V Type: CR123A, Size: 2/3A   |
| Battery life expectancy | Up to 4 years on regular use   |
| Current Consumptions    | Standby: 11µA ,Average: 26µA   |
| Transmit power          | Tx Power at +22dBm, typical and Rx Sensitivity at -97dBm, typical                  |
| LED Indicators          | Red LED: ON – Pairing/HW problem<br>Green LED: Pair Status OK                      |
| Operating Temperature   | -10°C – +50°C (14°F– 122°F)  |
| Dimensions              | 95mm x 50mm x 34mm   |
| Weight (incl. battery)  | T.B.D. gr  |
| Part Numbers            | 0067400 – CR-DU-HUM-EURO<br>0067401 – CR-DU-HUM -USA<br>0067402 – CR-DU-HUM -JAPAN |
| Compliance              | CE, FCC Part 15, IC, ETL & ULE   |
